INTRODUCTION

The decade of the sixties was one of unparalleled growth and development for higher education in the Commonwealth. A few of the highlights of this publication reveal the significant progress made by the state-supported colleges and universities.

\+ *Earned degrees granted by the five regional colleges and universities, University of Kentucky, and the Community College System increased from 3,748 in 1960 to 10,718 in 1969.*

\+ *Enrollments of the six state-supported institutions of higher education and the community colleges increased from 19,856 in the 1959-60 academic year to 62,376 for the Fall Semester of the 1969-70 academic year.*

\+ *The University of Kentucky extension centers enrolled 1,099 students in 1959-60. These centers evolved into a network of fifteen Community Colleges enrolling 10,147 students in the 1969-70 academic year.*

\+ *State general fund appropriations increased from $14,163,995 in the 1959-60 academic year to $92,216,310 for 1969-70 to meet the needs of new programs, increased enrollments and new facilities at the six state-supported institutions of higher education.*

\+ *Capital construction completed from 1960 through 1969 exceeded 12 million square feet in academic, laboratory, library, graduate and professional school, administrative, residential and student union facilities at the six institutions, the Community College System and the University of Louisville.*

\+ *The University of Louisville through an Act of the 1968 General Assembly began receiving a state appropriation for the reduction of tuition for Kentucky students.*

\+ *The 1968 General Assembly enacted legislation to establish Northern Kentucky State College in the Covington area. Northern is a transformation of the Community College and will enroll its first upper division class the Fall Semester of 1971.*

The U. S. Office of Education recently published figures relating to the growth in enrollment and degree productivity at the public institutions through the sixties. Based on a comparison of percentages, Kentucky public institutions exceeded the national growth for this period in enrollment and degrees conferred.

National Higher Education Growth
1959-60 to 1969-70

	1959-60	1969-70	%-change
Enrollment			
Public Institutions	2,134,000	5,619,000	+163%
Kentucky Public Institutions	26,294	71,433	+171%
Degrees			
Bachelor's and First Professional			
Public Institutions	389,183	772,000	+ 98%
Kentucky Public Institutions	4,807	12,356	+157%

These highlights reflect the zeal of the Commonwealth to adequately provide for the educational needs of its citizens.

We are indebted to the college and university Registrars, Admissions Officers and Financial Aid Officers for their cooperation in acquiring this data. Other sources utilized were Kentucky College and University Enrollments, Kentucky Executive Budget, and the Commission on Higher Education.

This publication was prepared by Dr. William A. Webb with the assistance of Billy F. Hunt, William R. Scruggs, and Herman B. Moore. We express our appreciation to Mrs. Parrent, Mrs. Barton, and Mrs. Rodgers for their assistance in producing this publication.

SECTION I

SUMMARY OF ENROLLMENT AND GENERAL FUND APPROPRIATIONS 1959-60 THROUGH 1969-70

During this decade total enrollment at the state-supported colleges and universities expanded by 45,139 students. The cost of education increased in Kentucky as it did elsewhere across the nation throughout the sixties. To accomodate the requirements for new programs and enrollment growth general fund appropriations to the state-supported colleges and universities rose from $14 million to $95 million during this period.

Although the University of Louisville has not been a fully financed state university, its enrollment and appropriation was included in the summary for all state-supported colleges and universities. The University of Louisville general fund appropriation was primarily utilized by the medical and dental schools for research purposes until 1968 when an additional $2 million was appropriated to reduce tuition for Kentucky residents. The University of Louisville will officially become a state university July 1, 1970.

The summary page for the University of Kentucky Lexington campus includes the general fund appropriation to all sectors of the University of Kentucky.

SECTION II

ENROLLMENT SUMMARY

Enrollment on the campuses of the six state-supported institutions of higher education and the University of Kentucky Community College System has increased by approximately 214 percent since the 1959-60 academic year. The enrollment at Western Kentucky University increased 279 percent, Eastern Kentucky University 255 percent, Morehead State University 209 percent, Murray State University 168 percent, Kentucky State College 140 percent, and the University of Kentucky Lexington campus 118 percent.

Changes also appeared in the number of students in each classification. From the Fall Semester 1965 to the Fall Semester 1969 the percentage in the lower division student classifications decreased while the percentage in the upper division and graduate levels increased.

Student Classification	Fall 1965	Fall 1969
Freshman	40.1	30.9
Sophomore	21.4	19.4
Junior	16.7	19.2
Senior	14.2	20.0
Graduate	7.5	10.3

The shift may be attributed to several factors. Among these factors are the rapid growth in community college enrollment, community college students transferring to the upper division, expansion of undergraduate and graduate programs, increased desire for bachelor and graduate degrees, returning veterans, and expanded financial aid opportunities.

SECTION III

FRESHMAN MATRICULATION

Analysis of the data included in this section is limited since the data illustrates only numerical relationships and does not portray matriculation of individuals.

The summary page depicts matriculation of the 1966-67 freshman class of the six state-supported institutions of higher education. It does not include the University of Kentucky Community College System. The Fall Semester 1969 senior class enrollment was 66.6 percent of the number of students enrolled in the freshman class. The matriculation percentage for Kentucky students in this class is 65.5 and for out-of-state students 70.6.

This summary indicates the holding power of the state-supported institutions has increased. The senior class of 1968 was 62.8 percent of the number in the 1965 freshman class with Kentucky students at 61.6 percent and out-of-state students 66.9 percent.

A mobility factor is recognizable in the numerical relationship of the senior class to the junior class and the junior class to the sophomore class. In addition to mobility, other factors such as returning veterans, the increasing number of community college transfers, married students and students who withdrew and later elected to return, among other reasons, will probably cause a continuation of the high percentage relationship of numbers in the junior and senior classes and to the number of freshman.

SECTION IV

FALL 1969 FRESHMAN ADMISSION

An aggregate of 17,486 applications (excluding University of Kentucky Community College System) from in-state and out-of-state students received consideration for admission to the 1969 freshman class. This is a 10 percent increase over the number acted on for the 1968 class. 89.2 percent of the applications for admission to the 1969 class were accepted by the six institutions and 74.1 percent of those students accepted actually enrolled in the 1969 freshman class.

SECTION V

ACADEMIC DEFICIENCY AND THE FRESHMAN CLASS OF 1968

The six state-supported institutions of higher education enrolled an aggregate of 14,698 freshmen for the fall semester of the 1968-69 academic year.

This section shows the number of 1968 freshmen not re-admitted at each institution of higher education in the fall of 1969 because of academic deficiencies. The numbers are also expressed as a percent of the number of full-time 1968 freshmen. The University of Kentucky Community College System and the University of Louisville are not included in these figures.

SECTION VI

FINANCIAL AID APPLICATIONS RECEIVED FROM FULL-TIME FRESHMEN AT THE SIX KENTUCKY STATE-SUPPORTED INSTITUTIONS OF HIGHER EDUCATION, FALL SEMESTER 1969

Nearly 6,000 requests for financial assistance were filed by full-time freshmen at the Kentucky state-supported institutions of higher education for the Fall Semester 1969. Basically the applications represent requests for National Defense Loans, Economic Opportunity Grants, and College Work-Study Assistance.

The institutions made available $1.75 million to partially fund these requests. The total of 3,249 applications approved represents 16.2 percent of the full-time freshman class in the state institutions. The applications approved represent 55 percent of the number filed for consideration. While some students may have been successful in pursuing other sources of assistance, the demand still substantially exceeds the available funds. The number of applications increased by approximately 1,500 over the 1968 fall term, yet the applications approved fell just below the 1968 level.

Students who may be interested in applying for financial aid often find that funds are already exhausted and as a result do not file an application. Therefore, the number of applications filed does not necessarily represent the number of students in need of financial assistance.

SECTION VII

DEGREES EARNED
1960-1969

The six state-supported institutions of higher education, the University of Kentucky Community College System, and the University of Louisville awarded 69,470 degrees during the decade of the sixties. Approximately 6 percent were two-year diplomas; 75 percent four-year or first professional degrees; 17 percent masters degrees; and 1 percent doctoral degrees.

12,356 degrees were awarded in 1969 by the state colleges and universities. This was an increase of 157 percent over the base year 1960.

This section includes the number of bachelor and first professional degrees conferred by the state-supported institutions expressed as a ratio of the number of students classified as senior and the number classified as freshmen four years earlier. Incomplete student classification information in the College and University Enrollments publications preceding 1960 limited analyses.
